

## Sterile Processing Benchmarks

This new web-based tool helps sterile processing departments measure their practices, policies, and procedures against

others. It includes an online survey featuring more than 130 benchmarking measurements and metrics; and a powerful, easy-to-use tool to help analyze data on sterilization practices, compliance, clinical relationships, staffing, budgets, qualifications, and much more. Subscribers get complete access to data for an entire year.

## ST79:2010, A1:2010, & A2:2011,

*Comprehensive guide to steam sterilization and sterility assurance in health care facilities* (Consolidated text)

This second edition of ST79 includes, among other things, guidance on the use and application of Class 6 emulating indicators, a

chemical monitoring device fairly new to the United States. The 2011 amendment primarily updates terms and references.
