Chapter 1 The Electrical Safety Program	5
Electrical Safety Program Rationale	5
Basic Elements of an Electrical Safety Program	6
Recommended Steps for Implementing an Effective Program	6
Chapter 2 Electrical Safety Requirements	9
Classification of Areas	9
Standards	10
Chapter 3 Scheduling of Tests	17
Recommended Test Schedules	17
Chapter 4 Environmental Test Procedures	19
Receptacle and Ground System Testing	19
Isolated Power System Testing	23
Chapter 5 Equipment Test Procedures	27
Incoming Equipment Inspection	27
Device Inspection and Testing	28
Chapter 6 The Safe Operation of Medical Devices	33
Device Safety Guidelines	33
Safety Inspections by the Operator	38
Operator Maintenance	40
Emergency Response	41
Safe Use of Extension Cords	42
Device Performance and Electromagnetic Interference: An Introduction	45
Human Factors and Human Errors: New Tools Required	47
Chapter 7 Codes, Standards, and Regulations	51
Association for the Advancement of Medical Instrumentation	51

Appendices	57
Appendix A Managing Personally Owned Electrical Devices	57
Purpose	57
General	57
Policy	57
Responsibilities	58
Managing Patient-Owned Devices	58
Processing Requests for Exceptions	58
Appendix B Power Line Color Code	61
Appendix C Power Plug Wiring Procedure	63
Appendix D Responding to Equipment-Related Incidents	65
Purpose	65
Policy	65
Procedure	65
Appendix E Ground Resistance and Leakage Current Limits	69
Appendix F Responding to Medical Device Hazard Alert and Recall Notifications	75
Purpose	75
Principal Parties	75
General	75
Policy	75
Definitions	76
Responsibilities	76
Receiving Notifications	77
Completing and Documenting Corrective Action	77
Appendix G Lockout/Tagout Requirements	79
Scope	79
Appendix H The Safe Medical Devices Act	83
Medical Device Reporting (MDR)	83
Medical Device Tracking (MDT)	83
Related Programs	84
Appendix I Managing Rented and Leased Medical Equipment	85
Purpose	85
Policy	85
Procedure	85
Appendix J Common Problems and Possible Solutions	87
Plastic-Encased Devices: Requirements for Grounding and Testing	87
The Use of Unlisted or Unlabeled Devices	88
Low-Voltage, Home-Type Appliances	89
Safety Inspection of Battery-Operated Devices	90
Equipment Assemblage with High Leakage Currents	90
Appliances with GFCI Functions	91
Forms	93
