AAMI ARRAY Targeted Banner Ad -

NEW! Includes placement on all AAMI ARRAY articles, blog posts, press releases and landing pages containing content tagged to your audience target of choice!

\$1,150

Web Advertising: *Pop-Up Ad*

It often takes a series of impressions for an ad to convert into a click. It can be hard to know in web advertising if your ad has been truly seen or simply scrolled over. Introducing our solution to guaranteed interaction with your placement: Pop-Up Ads! Upon initial unique landing on one of AAMI's high-traffic pages, your potential customers will have your ad pop-up in front of them, prompting either an ad click or a guaranteed impression via click-to-close. Your Pop-Up Ad placement will appear on no less than 3 flagship AAMI.org pages, curated to the audience you are most interested in targeting. Placements include pages like [HTM Resources](#), [Standards Monitor Online](#), [AAMI Events Feed](#), [ACI Certification](#), and [AAMI/ANSI ST79](#).

More than 20% OFF on three consecutive months!

Web Advertising: Training Pages

Training landing pages – AAMI Training receives robust marketing campaigns, driving a large amount of traffic to our landing pages for these events—traffic that is highly-qualified to have an interest in the topic of the course. This option is a unique way to reach a niche audience within the medical device community.

A. New! Pop-up banner ad: \$1,895/3-month placement

B. Right hand column vertical banner ad: \$1,395/3-month placement

Participants will learn how to apply the principles of sterilization and address requirements during product design. Participants will also determine how to select the appropriate sterilization process and how to identify the elements of a successful sterilization process. Students will participate in the design of process validation studies, compare and contrast radiation sterilization processes and compare and contrast product bioburden and those based on combined bioburden and those based on combined bioburden/overkill methods.

Is Your Medical Device Ready for the Cloud?

It's a simple truth: Medical device manufacturers don't write all the software that drives their products. This is especially true for cloud computing. Hear from cloud experts Pat Baird and Randy Horton on how this impacts the device industry, especially as more devices adopt third-party services for their cloud technology needs.
